SYNOPSIS

STATEMENT OF PURPOSE AND MAIN FEATURES OF PROPOSED RULE

The purpose of this amendment is to add verbiage regarding maximum occupancy determined for the building due to issues found with the maximum determined for students per class being higher than the occupancy maximum determined for the building. In the past, the certificate of occupancy was not required but was sometimes still submitted. In recent scenarios, the Department found that the occupancy maximum established by the county's fire marshal was significantly lower than what was determined (for the classroom) by the Department's measurements.

DIFFERENCE BETWEEN EXISTING AND PROPOSED RULES

This proposed amendment requires the maximum number of students per class determined by the Department not to supersede the occupancy load or maximum for the building determined by the local governing entity (i.e. county or city fire marshal, inspector, or agent). A copy of the Certificate of Occupancy must be submitted during the certification application process. Any school, office, or classroom facility utilized for or approved for the purpose of a DUI Alcohol or Drug Use Risk Reduction program shall be clean and safe from health hazards such as rodents, pest infestation, and mold.
